## IB 599 ANALAYTICAL WORKFLOWS Final Presentation Rubric

	OUTSTANDING	ACCEPTABLE	NEEDS IMPROVEMENT
Research	Significant progress on research relative to initial presentation*	At least one clear example of incremental progress on research relative to initial presentation*	No evidence of progress on research relative to initial presentation
Reproducibility	Exact workflow could be easily reproduced by someone else, working from repository+	The workflow is reproducible in principle, given enough work and in conversation with the original author	Workflow mostly only exists within a specific machine and author
Presentation	In addition to following best practices, slides are beautiful and clearly transmit their message	-Roughly 10 minutes of content (no more than 5 slides)  -Figures follow best practices for data visualization	One or more of the follow:  -figures do not follow best practices -over time -over slide limit

\*no penalty for describing work chasing down dead ends: part of the research process

+assuming the person had access to any proprietary data, etc.
